

## MODE 1 · Auto - Track

- Press “Auto” button to simulate a 30 s “sunrise → sunset” and auto - track one cycle.
- Remember: to run again, first toggle button off, then press on.

**Note: Modes are mutually exclusive.**  
**After you finish, please switch all buttons off.**

“Auto” Button

## MODE 2 · Manual-Track & Energy Comparison

- After exiting Mode 1, press “Manual” button to turn on the “little sun”.
- Slide control ←→ to move the “little sun”; the tracker follows.
- Two LED strips show fixed vs. tracked energy gain.
- Press button again to exit.
